

159 The 2020 Unisys Security Index stands at 159 out of 300 in the U.S., a decline of 6 points from 2019. Despite the decrease, the U.S. score was still the second-highest of the developed countries surveyed.

UNISYS SECURITY INDEX TRENDS VS. 2019

PERSONAL SECURITY
+2%

FINANCIAL SECURITY
-5%

NATIONAL SECURITY
-3%

INTERNET SECURITY
-8%

58%

Personal Safety concerns have seen the largest increase, rising 9 percentage points to 58% seriously concerned.

41%

Seriously concerned about a data breach while working remotely, reflecting a false sense of security.

INTERNET SECURITY

Drops from second place last year to fourth this year, and was the only index area to show a lower concern level than in 2017.

62%

Are concerned by natural disasters such as pandemics, which rose to 3rd place from 7th place in 2019. In a global health crisis most are concerned about their family's physical health.
